We are proud to offer this sensational shade tree. It will provide good shade quicker than any tree we know of, and is superior in many ways to other fast growing trees.

The Moraine Locust is hardy and grows successfully on a wide range of soils. Because it is sterile, there are no unsightly seed pods to clutter up the lawn, and its non-fruiting habit also makes for better foliage.

Vase formed in shape, wide spreading when older. Transplants easily. Grows to a height of 25 to 40 ft.
